## ABOUT ME

Professionally, I am a Full Stack Web Developer skilled in Front-End programming languages like HTML5, CSS3 and JavaScript. I have knowledge in technologies like React Js, Next js, Node.js and MongoDB and Agile software development methodology. And I know Social Media managent and marketing.

## EXPERIENCE

### Social Media Manager, Millennium Tourism Azerbaijan

11/2024 - 02/2025

*Executed digital marketing campaigns, boosting engagement and followers. Managed ads for brand awareness and customer acquisition, optimized ROI through data analysis, and collaborated on cohesive branding.*

### Frontend Trainer, Rever Academy

2/2024 - Until now

As a Frontend Trainer, I am responsible for delivering high-quality, engaging and interactive lessons to students. I guide them through the fundamentals and advanced concepts of advanced development, ensuring they acquire the skills they need to succeed in the technology industry.

### Intern Frontend Developer, Yelload

1/2024 - 2/2024

Yelload is a company that provides 360° Marketing and Communication Services. During my tenure, I have supported new websites and ongoing web projects

### Intern Frontend Developer, MOTO4

10/2023 - 1/2024

MOTO4 is a website that helps people make better decisions in the automotive industry. During my tenure, I worked on creating the initial web interface.
